

GP1-1N 1N yellow gold pen plating solution

- Gold pen plating solution
- 1N or greenish yellow gold color
- Great for two-tone plating applications
- Good color repeatability
- Used to cover solder joints
- Nickel, lead, and cadmium free

GP1-1N is a yellow gold pen plating solution which deposits a brilliant 1N gold color to the surface applied. 1N can be described as a greenish yellow color with evidently green undertones and is a common color throughout Europe. It is a perfect solution to for two-tone plating applications where a greenish gold color is required. It can also be used to highlight specific details or cover solder joints on 1N gold colored items. This yellow gold pen plating solution is nickel, lead, and cadmium free, and despite being a traditional cyanide based alkaline chemical, it is easily transported given the toxic level contained is below the limit established by international transportation laws.

Metal concentration	1 g/ 100 ml
Volume	100 ml
Purity (%)	99.999
Density (g/cm3)	19.6
Hardness (HV 0,01)	90 - 100
Thickness (um)	0.1 - 0.3
Appearance	Shiny
Color	1N yellow gold
